## **Diabetes Management for School Nurses**

### ***School Nurse News***

The following articles, developed by members of the NDEP's Diabetes in Children and Adolescents Work Group, have appeared in *School Nurse News*. Provided for posting on the NDEP website compliments of *School Nurse News*, the articles offer in-depth information for school nurses on a variety of topics related to helping students manage their diabetes in the school setting. You are welcome to reproduce and distribute the articles to school staff, parents, and students with diabetes. In any use, please note that the article was originally published in *School Nurse News* in partnership with the National Diabetes Education Program.
